1. INTRODUCTION

This report meets the requirements of section 167 of the *Gaming Machine Act 2004* (the Act) which obliges the ACT Gambling and Racing Commission to report to the Minister within four months of the end of the financial year on community contributions made by gaming machine licensees. The report provides a summary of the extent of compliance by licensees and an analysis of the extent to which revenue received by licensees has been used to make community contributions during the period 1 July 2014 to 30 June 2015. The report also includes statistical information compiled from the details of contributions supplied by gaming machine licensees for the financial year.

Mandatory reporting of community contributions made by licensees was introduced in 1997. The Commissioner for ACT Revenue produced the first two reports and subsequent reporting became the responsibility of the ACT Gambling and Racing Commission following its establishment in December 1999.

Part 12 of the Act contains the primary legislative provisions dealing with community contributions and for ease of reference the legislation relevant to the reporting period is included at **Attachment A** to this report. Guidelines for approving contributions in Part 9 of the *Gaming Machine Regulation 2004* (the Regulation) relevant to the reporting period are at **Attachment B**.

The legislation outlines broad purposes that contributions must meet to be approved as community contributions and identifies some types of expenditure that would not be approved as community contributions. The Regulation provides guidelines for approving contributions to further assist the Commission and licensees regarding the general criteria for each of the categories of community contributions.

In brief, for the 2014-15 financial year a licensee that is a club was required to make a minimum level of community contributions equal to 8% of the club's Net Gaming Machine Revenue (NGMR). NGMR, as defined in the legislation, is calculated as follows:

Gross Gaming Machine Revenue (GGMR) derived by the licensee, less:

- a) any amount of gaming machine tax payable on the GGMR; and
- b) 24% of GGMR.

GGMR is the total of all moneys inserted into machines less winnings to players and approved amounts set aside for the payment of linked jackpots. The 24% deduction is recognition of the expenses a licensee incurs in gaming machine operations.

In 2014-15, Clubs made community contributions to the value of \$11,879,162 which was 12.62% of their NGMR. This compares to last year's level of contributions of \$12,591,384 or 13.15% of NGMR.

For a hotel or tavern licensee, it is not mandatory for them to make any contributions although it is compulsory for them to keep records and report the details of any contributions made. If no contributions are made in the reporting period, a nil report must be submitted.

In 2014-15, hotels and taverns made community contributions of \$7,293 which is a 16.32% decrease from the previous year's total of \$8,715.

All licensees must report to the Commission the total value of contributions to registered parties and associated entities (see *Electoral Act 1992*). These contributions are reported by the Commission for continuity of historical data even though there has been no statutory requirement to report such information to the Minister since the introduction of the Act in 2004.

2. ASSESSMENT AND AUDIT PROGRAM

On receipt of each licensee's report of its community contributions the Commission conducts a preliminary examination of each reported contribution. The purpose is to ascertain *prima facie* its eligibility as a community contribution pursuant to the Act.

In instances where there is doubt about the eligibility of a contribution, licensees are contacted and afforded the opportunity to provide additional information before the Commission approves or declines to approve the contribution. In situations where no responses were provided the proposed contributions were not approved as they could not be verified as being eligible by the Commission.

In relation to the reported contributions for 2014-15, club contributions totalling \$5,803 (0.05 per cent of total claimed club contributions) involving 23 clubs were considered ineligible for approval as community contributions and consequently were not approved.

Five Hotel/Tavern licensees had understated their eligible contributions to a total of \$406.

Following the Minister's tabling of the Commission's report, the Commission commences a more comprehensive audit program of reported contributions as a part of the overall audit program of licensees. Discrepancies that are discovered which result in a material change to a licensee's community contributions are noted for inclusion in the following year's report, and if applicable, notices of shortfall tax liabilities are issued.

3. AMENDMENTS TO THE 2013-14 REPORT

During 2014-15 the Commission conducted 53 audits concerning the verification of community contributions claimed for the 2013-14 financial year. The Commission's audits resulted in minor amendments to the 2013-14 financial year's community contributions statistics for both clubs and hotels/taverns. The two tables that follow outline the final amendments to the contribution categories for each reporting group.

The Commission's focus has been on ensuring licensees are aware of their legislative obligations and ensuring compliance with these obligations.

4. COMPLIANCE BY LICENSEES

REQUIREMENTS

Section 165 of the Act requires a licensee to record for each community contribution made by the licensee:

- the entity to which, and the purpose for which, each contribution was made; and
- the amount or value of the contribution and the date when, or the period over which, it was made.

To assist licensees in providing the community contributions information, reporting pro-forma have been developed by the Commission.

Section 166 of the Act requires a licensee to give the Commission within one month of the end of the financial year a copy of the records kept under section 165 of the Act. In addition, information specifying the licensee's GGMR, NGMR, total value of contributions and total value of contributions to registered parties and their associated political entities must be provided.

The Act requires the Commission to analyse and report on the extent to which gaming machine revenue received by licensees was being used to make contributions to the community during the 2014-15 financial year.

In general terms, community contributions approved under the Act are to be for the benefit of the general public or community. The contributions should have the effect of:

- contributing to or supporting the development of the community; or
- raising the standard of living of the community or part of the community.

Reported community contributions are defined and segregated, in accordance with the guidelines described in the Regulation, into each of the five categories indicated below:

- (i) *Charitable and Social Welfare;*
- (ii) *Problem Gambling;*
- (iii) *Sport and Recreation;*
- (iv) *Non-Profit Activities; and*
- (v) *Community Infrastructure.*

More comprehensive information on these categories is given at **Attachment B**.

There are two incentive schemes in the Act which have been included to encourage gaming machine licensees to increase their community contributions to women's sport and to assist problem gambling issues. The incentive schemes allow a licensee to claim \$4 for every \$3 spent on eligible contributions in these two areas. In light of these schemes, contributions to Women's Sport and Problem Gambling are reported as separate categories.

The minimum required percentage of community contribution for clubs is 8% of NGMR. There is no minimum requirement for hotels and taverns.

The allowance of contributions to the Problem Gambling Assistance Fund, while a mandatory levy under section 163A of the Act, recognises the contribution made by gaming machine licensees to problem gambling support services under this scheme.

In relation to other contributions to problem gambling assistance section 171A of the Act allows licensees to claim \$4 for every \$3 for such contributions as an incentive to increase outlays in this area. Consistent with ensuring that payments to the Problem Gambling Assistance Fund are over and above the existing level of mandatory community contributions, section 171A(2) excludes payments to the Problem Gambling Assistance Fund from this incentive scheme. This means that while a licensee may include their payments to the Problem Gambling Assistance Fund as part of their problem gambling community contributions, they cannot claim the payments at the value of \$4 for every \$3 as they would other problem gambling community contributions. Accordingly, these two amounts have been separately identified.

COMPLIANCE

As at 30 June 2015 there were 49 clubs and 9 hotel/tavern gaming machine licensees that were required to submit reports pursuant to section 166 of the Act.

All licensees submitted a report by the due date of 31 July 2015.

In accordance with section 172 of the Act, any shortfall in contributions below the required level of 8% of NGMR is required to be paid as a Community Contribution Shortfall Tax. All clubs made the required minimum community contribution level of 8% of NGMR and as a consequence no Community Contribution Shortfall Tax assessments have been issued.

In circumstances where a club had an annual gross gaming machine revenue of less than \$200,000, the legislation provides for the club to apply to the Minister for a lower required percentage of community contributions. The club must demonstrate that its viability would be brought into question if required to meet the full 8% of NGMR. No applications were received for 2014-15 from licensees seeking a determination from the Minister for a lower percentage.

5. THE EXTENT OF COMMUNITY CONTRIBUTIONS BY CLUBS

Table 3 below details the total value of approved community contributions by club gaming machine licensees for the last nine financial years:

Table 3: Community Contribution and Proportion of NGMR*

2006-07	12.796	109.406	11.70	2.06 increase

* NGMR is Net Gaming Machine Revenue as defined in the Gaming Machine Act 2004

Table 3 indicates that the total value of approved (eligible) contributions has decreased compared to the previous financial year and the proportion of community contributions to NGMR for 2014-15 has decreased compared to 2013-14. The level of NGMR in 2014-15 has decreased compared to the previous financial year.

Table 4 provides a summary of:

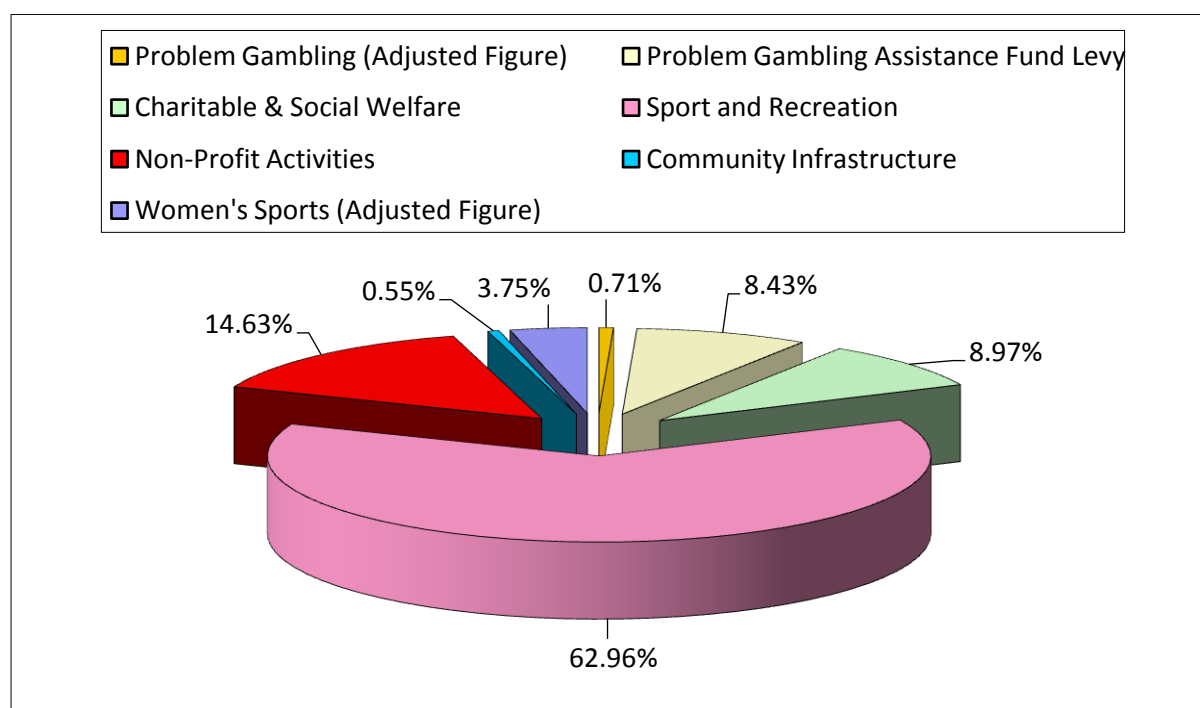

- total contributions made to each category;
- each category's proportion of the total community contributions; and
- a comparison of each category's proportion of total contributions for 2014-15 and the previous reporting period, 2013-14.

In accordance with section 166 of the Act, in 2014-15 10 clubs reported contributions amounting to \$23,864 to registered parties and associated entities. Individual club contributions are listed at **Attachment F**.

Figure 1 shows the proportion of community contributions provided to each category.

Figure 1. Percentage of Total Club Contributions 2014-15

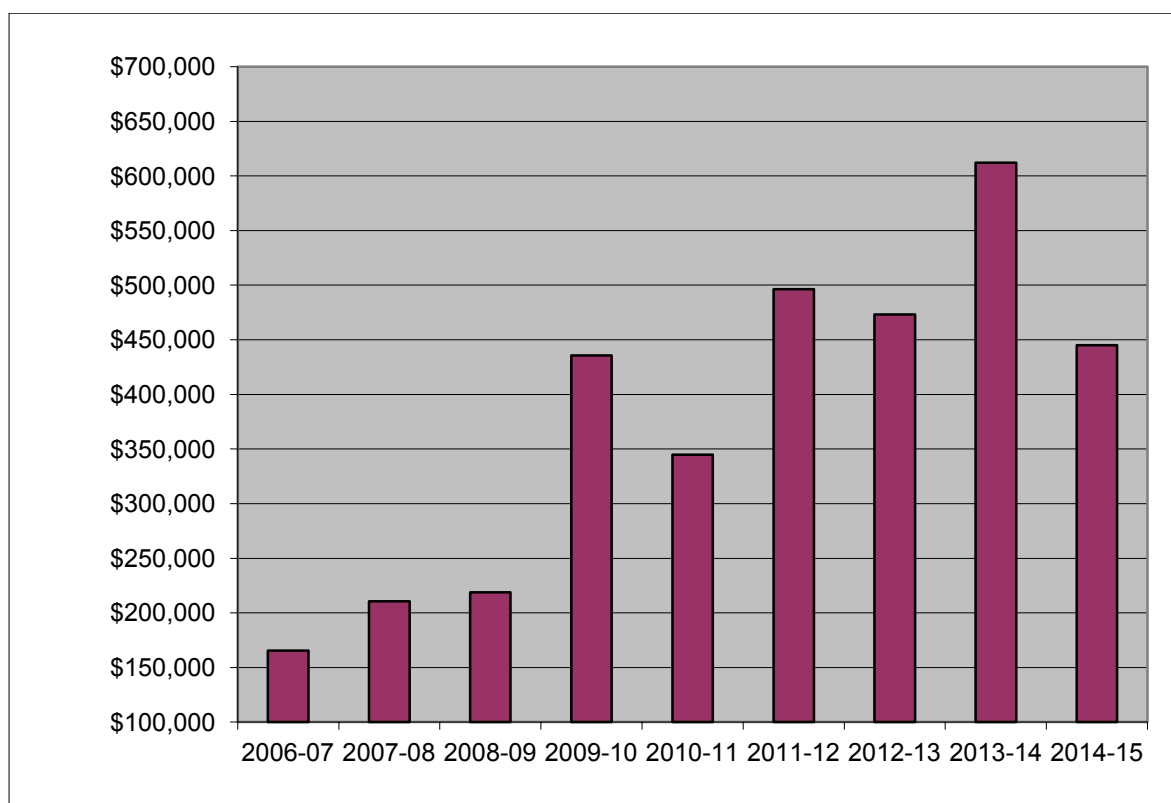

The level of contributions to the Sport and Recreation category consistently and significantly outweighs the combined totals of the other categories. This outcome highlights the fact that the support and development of sporting activities are among the principal objectives of many clubs and the expenditure consumed in pursuit of those objectives can be claimed as a community contribution.

The Commission notes the following observations in relation to club community contributions experienced in 2014-15 compared to 2013-14. Increases in contribution amounts occurred in all categories except for Sport and Recreation and Women's Sport and PGAF. The largest increases occurred in the Community Infrastructure and Problem Gambling (Adjusted) categories.

WOMEN'S SPORT

The contributions to Women's Sport decreased by \$167,075 or 27.29% from the previous year and Figure 2 below shows recent trends in this category.

Figure 2. Women's Sport Contributions (Adjusted)

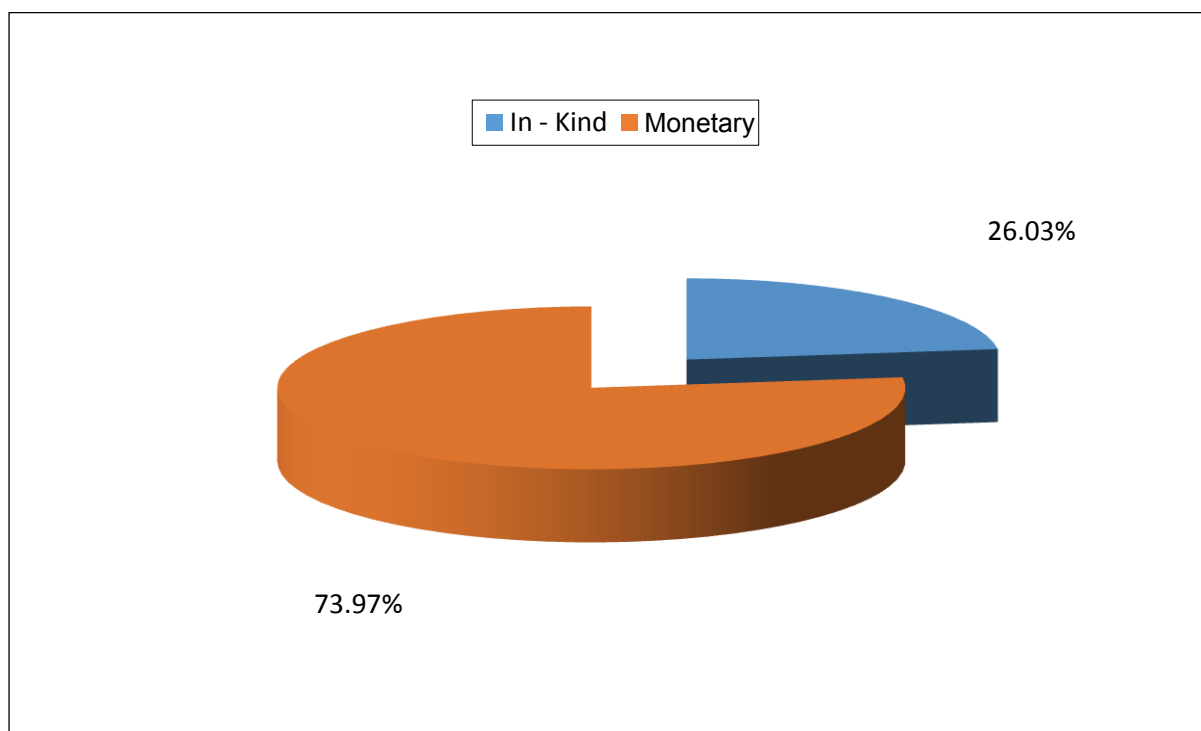

IN-KIND CONTRIBUTIONS vs MONETARY CONTRIBUTIONS

A community contribution may consist of a monetary contribution or an in-kind contribution. An in-kind contribution is a contribution in lieu of a donation of funds, such as providing a free room where the hire of that room would otherwise incur a cost.

In the reporting period, community contributions of \$3,092,392 were in-kind and \$8,786,770 were monetary contributions.

Figure 3 below shows the break-up of in-kind and monetary contributions made by club licensees for 2014-15. This is consistent with the break-up observed in 2013-14.

Figure 3. In-Kind and Monetary Contributions by Clubs 2014-15

OTHER STATISTICS

There is a wide range in the level of individual club contributions. While the smaller clubs provide a much lower dollar amount, their contributions as a proportion of their NGMR is significantly higher on average than for the larger clubs. In the reporting period the:

- 20 clubs that had the *highest* NGMR for the financial year had an average contribution percentage of 10.92% and provided an amount of \$8,919,719 or 75.09% of the total contributions;
- 20 clubs that had the *lowest* NGMR for the financial year had an average contribution percentage of 100.12% and provided an amount of \$649,098 or 5.46% of the total contributions; and
- The remaining 9 clubs had an average contribution percentage of 21.72% and contributed \$2,310,345 or 19.45% of the total club contributions.

The clubs' reports also show that:

- 13 clubs declared contributions in excess of 20% of NGMR;
- 35 clubs declared contributions between 8% and 20% of NGMR; and
- 1 club had zero or negative NGMR and therefore did not record a proportion of contributions to revenue.

Table 5 provides a summary of the number of clubs that contributed in each category and an average amount of each contribution.

6. EXTENT OF COMMUNITY CONTRIBUTIONS BY HOTELS AND TAVERNS

Hotels and taverns are required to report on their community contributions or to submit a nil report if no contributions have been made during the reporting period. The categories of community contributions including Women's Sport and Problem Gambling that apply to clubs also apply to hotels and taverns. However, the statistical information for hotels and taverns is based on the gross gaming machine revenue (GGMR) consistent with the legislative reporting requirements.

For the hotel/tavern group of licensees, GGMR in 2014-15 was \$428,807. These licensees contributed \$7,293 to the community, which represents 1.70% of their GGMR. In 2013-14 the total contributions amounted to \$8,715 representing 1.86% of their total GGMR of \$486,112.

Table 6 below provides the amount of contributions made by hotel and tavern gaming machine licensees to each category.

ATTACHMENT A: GAMING MACHINE ACT 2004

Part 12 Community contributions

164 Approval of community contributions

(1) The Commission may approve contributions made by a licensee to a stated entity for a stated purpose as **community contributions** if satisfied the contributions will have the effect of—

- (a) contributing to or supporting the development of the community; or
- (b) raising the standard of living of the community or part of the community.

Examples of areas of contributions

- 1 charitable and social welfare
- 2 sport and recreation
- 3 non-profit activities
- 4 community infrastructure

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see Legislation Act, s 126 and s 132).

(2) The Regulations may make provision in relation to contributions, including—

- (a) guidelines for approving contributions as community contributions; and
- (b) how contributions may be claimed.

Example

A capital payment may be claimed proportionately over a number of years.

(3) In this section:

community includes a community outside the ACT.

contribution, by a licensee—

- (a) includes the value of a contribution made in kind by the licensee; but
- (b) does not include the following:
 - (i) expenditure on commercial activities, or, if the licensee is a club, on the social or entertainment activities of the club for its members;
 - (ii) expenditure intended to promote the licensee's activities;
 - (iii) expenditure in relation to gambling (for example, the purchase of gaming machines);
 - (iv) capital payments for assets owned, controlled or being acquired by the licensee or an associated organisation that are not available to be used by the public;
 - (v) capital payments or other expenditure on assets owned, controlled or being acquired by the licensee, if the assets are not in the ACT;
 - (vi) notional provisions (for example, long service and annual leave), other than depreciation;
 - (vii) depreciation in relation to a capital payment mentioned in paragraph (iv) or (v);
 - (viii) depreciation in relation to a capital payment that is an approved contribution;
 - (ix) a capital payment if depreciation in relation to the payment is an approved contribution;
 - (x) a contribution made out of donations collected by the licensee, or out of the proceeds of any special fundraising activity conducted by the licensee;

- (xi) a contribution to a business association, registered party, associated entity or trade union;
- (xii) if a contribution is made on a condition—the value to the licensee of that condition being fulfilled;
- (xiii) if an asset is otherwise a contribution—the value of any income earned from the asset (for example, entry or hiring fees);
- (xiv) a contribution made to another licensee under a reciprocal arrangement or agreement;
- (xv) the cost of borrowing funds to acquire an asset;
- (xvi) the payment of a tax, fee or levy, other than a payment required under section 163A (1) (Required payment to problem gambling assistance fund).

165 Records of contributions

- (1) A licensee must record each community contribution made by the licensee, stating—
 - (a) the entity to which, and the purpose for which, each contribution was made; and
 - (b) the amount or value of the contribution and the date when, or period over which, it was made.

Maximum penalty: 20 penalty units.

- (2) To remove any doubt, a record must relate to single licensed premises.
- (3) An offence against this section is a strict liability offence.

166 Report about records and finances

- (1) Within 1 month after the end of a financial year, a licensee must give the commission a copy of the records kept under section 165 that relate to the financial year, together with a financial report for the financial year.

Maximum penalty: 20 penalty units.

- (2) In this section:

financial report means a report about the following:

- (a) the gross revenue of the licensee;
- (b) if the licensee is a club—the net revenue of the licensee;
- (c) the total value of community contributions;
- (d) the total value of contributions to registered parties and associated entities.

Note If a form is approved under the Control Act, s 53D for a financial report, the form must be used.

167 Commission must report to Minister

Within 4 months after the end of the financial year, the Commission must give the Minister a report—

- (a) summarising the extent of compliance by licensees with section 165 and section 166 for the financial year; and
- (b) analysing the extent to which revenue received by licensees was being used to make community contributions during the financial year.

168 Minister must present commission's report

The Minister must present a report given to the Minister under section 167 to the Legislative Assembly within 6 sitting days after the day the Minister receives the report.

169 Required community contributions

(1) For a licensee that is a club, the **required community contribution** for a financial year is the required percentage of the club's net revenue for the financial year.

(2) In subsection (1):

required percentage, for a club, means—

- (a) 8%; or
- (b) if the Minister determines a different percentage under subsection (3) for the club—that percentage.

(3) The Minister may, in writing, determine a lower required percentage for a club if satisfied, on application by the club, that—

- (a) the gross revenue of the club for a financial year is, or is likely to be, less than \$200 000; and
- (b) if the required percentage for the club were 8%, the application of subsection (1) to the club would so seriously affect the club's viability that it would not be just and equitable in the circumstances for that subsection to apply to the club.

(4) A determination under subsection (3) is a disallowable instrument.

Note A disallowable instrument must be notified, and presented to the Legislative Assembly, under the Legislation Act.

170 Corporations with several licences

(1) This section applies to a club that is a licensee if a corporation owns the club and at least 1 other club that is a licensee.

(2) In working out the community contributions for the club, common expenditure on behalf of the different clubs must be allocated between the clubs in proportion to the number of gaming machines operated by each club.

171 Women's sport community contributions

(1) For every \$3 of women's sport community contributions that a licensee contributes to an entity under section 164 (1), the licensee's required community contributions must be worked out as if the licensee had contributed \$4.

(2) In this section:

women's sport community contributions means community contributions that the Commission is satisfied will benefit or enhance women's sport conducted in the ACT, or with participants mainly based in the ACT.

171A Problem gambling community contributions

(1) For every \$3 of problem gambling community contributions that a licensee contributes to an entity under section 164 (1), the licensee's required community contributions must be worked out as if the licensee had contributed \$4.
