1. INTRODUCTION

This report meets the requirements of section 167 of the *Gaming Machine Act 2004* (the Act) which obliges the ACT Gambling and Racing Commission to report to the Minister within four months of the end of the financial year on community contributions made by gaming machine licensees. The report provides a summary of the extent of compliance by licensees and an analysis of the extent to which revenue received by licensees has been used to make community contributions during the period 1 July 2009 to 30 June 2010. The report also includes statistical information compiled from the details of contributions supplied by gaming machine licensees for the financial year.

Mandatory reporting of community contributions made by licensees was introduced in 1997. The Commissioner for ACT Revenue produced the first two reports and subsequent reporting became the responsibility of the ACT Gambling and Racing Commission following its establishment in December 1999.

Part 12 of the Act contains the primary legislative provisions dealing with community contributions and for ease of reference is included at Attachment A to this report. Guidelines for approving contributions in Part 9 of the *Gaming Machine Regulation 2004* (the Regulation) are at Attachment B.

The legislation outlines broad purposes that contributions must meet to be approved as community contributions and identifies some types of expenditure that would not be approved as community contributions. The Regulations provide guidelines for approving contributions to further assist the Commission and licensees regarding the general criteria for each of the categories of community contributions.

In brief, for the 2009-10 financial year a licensee that is a club was required to make a minimum level of community contributions equal to 7% of the club's net gaming machine revenue (NGMR). NGMR, as defined in the legislation, is calculated as follows:

Gross Gaming Machine Revenue (GGMR) derived by the licensee, less:

- a) any amount of gaming machine tax payable on the GGMR; and
- b) 24% of GGMR.

GGMR is the total of all moneys inserted into machines less winnings to players and approved amounts set aside for the payment of linked jackpots. The 24% deduction is recognition of the expenses a licensee incurs in gaming machine operations.

For a hotel or tavern licensee, it is not compulsory for them to make any contributions although it is compulsory for them to keep records and report the details of any contributions made. If no contributions are made in the reporting period, a nil report must be submitted.

All licensees must report to the Commission the total value of contributions to registered parties and associated entities (see *Electoral Act 1992*). These contributions are reported by the Commission for continuity of historical data even though there has been no statutory requirement to report such information to the Minister since the introduction of the Act in 2004.

2. ASSESSMENT AND AUDIT PROGRAM

On receipt of each licensee's report of its community contributions the Commission conducts a preliminary examination of each reported contribution. The purpose is to ascertain *prima facie* its eligibility as a community contribution pursuant to the Act.

In instances where there is doubt about the eligibility of a contribution, licensees are contacted and afforded the opportunity to provide additional information before the Commission approves or declines to approve the contribution. In situations where no responses were provided the proposed contributions were not approved as they could not be verified as being eligible by the Commission.

In relation to the reported contributions for 2009-10, club contributions totalling \$104,222.83 (0.76% of total claimed club contributions) involving 29 clubs were considered ineligible for approval as community contributions and consequently were not approved. A further \$500 contribution for a Hotel licensee was also considered ineligible.

Following the Minister's tabling of the Commission's report, the Commission commences a more comprehensive audit program of reported contributions as a part of the overall audit program of licensees. Discrepancies that are discovered which result in a material change to a licensee's community contributions are noted for inclusion in the following year's report, and if applicable, notices of shortfall tax liabilities are issued.

3. AMENDMENTS TO THE 2008-09 REPORT

During 2009-10 the Commission conducted sixty-six (66) audits concerning the verification of community contributions claimed for the 2008-09 financial year. The Commission's audits resulted in minor amendments to the 2008-09 financial year's community contributions statistics for both clubs and hotels/taverns. The two tables that follow outline the final amendments to the contribution categories for each reporting group.

The Commission's focus has been on ensuring licensees are aware of their legislative obligations and ensuring compliance with these obligations.

CLUBS

There were no major amendments to any one club resulting from the Commission's audit program.

4. COMPLIANCE BY LICENSEES

Requirements

Section 165 of the Act requires a licensee to record for each community contribution made by the licensee:

- the entity to which, and the purpose for which, each contribution was made; and
- ➤ the amount or value of the contribution and the date when, or the period over which, it was made.

To assist licensees in providing the community contributions information, reporting pro-forma have been developed by the Commission.

Section 166 of the Act requires a licensee to give the Commission within one month of the end of the financial year a copy of the records kept under section 165 of the Act. In addition, information specifying the licensee's GGMR, NGMR, total value of contributions and total value of contributions to registered parties and their associated political entities must be provided.

The Act requires the Commission to analyse and report on the extent to which gaming machine revenue received by licensees was being used to make contributions to the community during the 2009-10 financial year.

In general terms, community contributions approved under the Act are to be for the benefit of the general public or community. The contributions should have the effect of:

- > contributing to or supporting the development of the community; or
- raising the standard of living of the community or part of the community.

Reported community contributions are defined and segregated, in accordance with the guidelines described in the Regulation, into each of the four categories indicated below:

- (i) Charitable and Social Welfare;
- (ii) Sport and Recreation;
- (iii) Non-Profit Activities; and
- (iv) Community Infrastructure.

More comprehensive information on these categories is given at Attachment B.

There are two incentive schemes in the Act which have been included to encourage gaming machine licensees to increase their community contributions to women's sport and to assist problem gambling issues. The incentive schemes allow a licensee to claim \$4 for every \$3 spent on eligible contributions in these two areas. In light of these schemes, contributions to Women's Sport are reported separately and are not included in the Sport and Recreation category and contributions to Problem Gambling are reported separately and are not included in the Charitable and Social Welfare category.

The minimum required percentage of community contribution for clubs is 7% of NGMR. There is no minimum requirement for hotels and taverns.

Compliance

As at 30 June 2010 there were 59 clubs and 11 hotel/tavern gaming machine licensees that were required to submit reports pursuant to section 166 of the Act.

Two licensees submitted reports later than 31 July 2010 despite reminders from the Commission. Table 3 lists those licensees that breached section 166 of the Act by submitting late reports.

Table 3. Late Submissions – Breach of Section 166 of the Act

Licensee	No. of days late submitting report
Serbian Cultural Club "St Sava"	21
Calwell Tavern	37

The Commission wrote to the licensees that submitted their reports after the statutory deadline to inform the licensees that they were in breach of the legislation. One of the licensees received a financial penalty and the other has had its licensee cancelled due to a range of disciplinary matters.

In accordance with section 172 of the Act, any shortfall in contributions below the required level of 7% of NGMR is required to be paid as a Community Contribution Shortfall Tax. No club failed to make the required minimum community contribution level of 7% of NGMR and as a consequence no Community Contribution Shortfall Tax assessments have been issued.

In circumstances where a club had an annual gross gaming machine revenue of less than \$200,000, the legislation provides for the club to apply to the Minister for a lower required percentage of community contributions. The club must demonstrate that its viability would be brought into question if required to meet the full 7% of NGMR. No applications were received for 2009-10 from licensees seeking a determination from the Minister for a lower percentage.

5. THE EXTENT OF COMMUNITY CONTRIBUTIONS BY CLUBS

Table 4 below details the total value of approved community contributions by club gaming machine licensees for the last eight financial years:

Table 4. Community Contributions and Proportion of NGMR*

2002-03	15.821	110.164	14.36	20.36 increase

^{*} NGMR is Net Gaming Machine Revenue as defined in the Gaming Machine Act 2004

Table 4 indicates that the total value of approved (eligible) contributions and the level of NGMR has marginally decreased compared to the previous financial year while the proportion of community contributions to NGMR has remained about the same.

Table 5 provides a summary of:

- > total contributions made to each category;
- > each category's proportion of the total community contributions; and
- ➤ a comparison of each category's proportion of total contributions for 2009-10 and the previous reporting period, 2008-09.

In accordance with section 166 of the Act, in 2009-10 eighteen clubs reported contributions amounting to \$625,977 to registered parties and associated entities. Individual club contributions are listed at Attachment F.

Figure 1 shows the proportion of community contributions provided to each category.

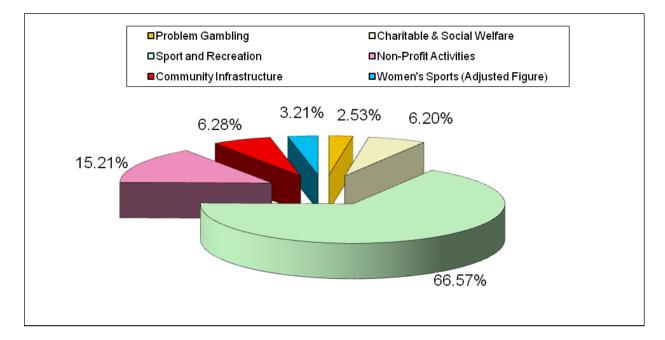

Figure 1. Percentage of Total Club Contributions 2009-10

The level of contributions to the Sport and Recreation category consistently and significantly outweighs the level of contributions to the individual and combined totals of the other categories. This outcome highlights the fact that the support and development of sporting activities are among the principal objectives of many clubs and the expenditure consumed in pursuit of those objectives can be claimed as a community contribution.

The Commission notes the following observations in relation to club community contributions experienced in 2009-10:

- (i) a significant increase in contributions going to Community Infrastructure and Women's Sport; and
- (ii) a decrease in the percentage of total club contributions being given to Sport and Recreation, Charitable and Social Welfare and Problem Gambling.

The increase in contributions to Community Infrastructure is attributable to one club group investing significant amounts to upgrade its football ground and Golf Course facilities. The increase in Women's Sports contributions is attributable to a significant increase in the contributions to this category from two large club groups and the re-categorisation of sports that women predominantly participate in (such as calisthenics) from the Sport and Recreation category to the Women's Sports category.

The decrease in contributions going to Charitable and Social Welfare organisations may be attributed to the significant contributions made in the previous year to the appeals for the Victorian bushfires and Queensland flooding disasters.

Women's Sport

The contributions to Women's Sport increased by \$216,874 or approximately 99.08% from the previous year and Figure 2 below shows the trends in this category since the introduction of the incentive.

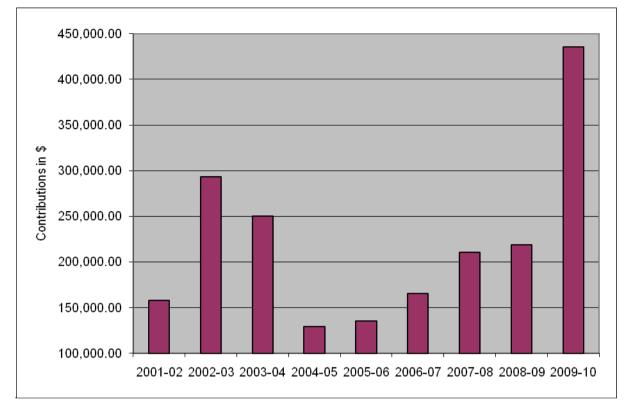

Figure 2. Women's Sport Contributions

Problem Gambling

The problem gambling incentive was introduced in December 2007. A comparative analysis of problem gambling contributions made by gaming machine licensees for the last two financial years is provided in Table 6 below.

	2009-10	2008-09	Change
		(amended)

Contribution total (adjusted)	\$343,871	\$406,101	-\$62,230
_			(15.32% decrease)

Table 6. Problem Gambling Contributions by Clubs

While the contribution level for 2009-10 appears to have decreased in comparison to 2008-09, the Commission understands that some payments for an on-going problem gambling assistance program scheduled to be made by licensees during the 2009-10 financial year were not called upon until the following financial year.

Other Statistics

There is a wide range in the level of individual club contributions². While the smaller clubs provide a much lower dollar amount, their contributions as a proportion of their NGMR is significantly higher on average than for the larger clubs. In the reporting period the:

- ➤ 20 clubs that had the *highest* NGMR for the financial year had an average contribution percentage of 13.64% and provided an amount of \$10,506,518 or 77.40% of the total club contributions:
- ➤ 20 clubs with the *lowest* NGMR for the financial year that submitted a community contributions report had an average contribution percentage of 44.03% and provided an amount of \$671.406 or 4.95% of the total club contributions; and
- remaining 19 clubs had an average contribution percentage of 20.18% and contributed \$2.395.990 or 17.65% of the total club contributions.

The clubs' reports also show that:

- ➤ 14 clubs declared contributions in excess of 20% of NGMR. In respect of some small clubs, their total contributions exceeded their NGMR because income from other sources was used for community contributions;
- ➤ 45 clubs declared contributions between 7% and 20% of NGMR; and
- ➤ No clubs reported a level of contributions below the minimum 7% requirement.

Table 7 provides a summary of the number of clubs that contributed in each category and an average amount of each contribution.

Table 7. Average Contribution per Category 2009-10

A summary of the "Required and Actual Community Contributions" for the individual clubs is at Attachment C. A further summary detailing the contributions by individual clubs to the various categories is at Attachment D.

² The gaming machine licensees not operational as of 30 June 2010 were not included in these calculations.

6. THE EXTENT OF COMMUNITY CONTRIBUTIONS BY HOTELS AND TAVERNS

Hotels and taverns are required to report on their community contributions or to submit a nil report if no contributions have been made during the reporting period. The four categories of community contributions and the incentives to Women's Sport and Problem Gambling applying to clubs also apply to hotels and taverns. However, the statistical information is based on the gross gaming machine revenue (GGMR).

For the hotel/tavern group of licensees, GGMR in 2009-10 was \$586,424. These licensees contributed \$41,164 to the community, which represents 7.02% of their GGMR. In comparison to the 2008-09 financial year the total contributions amounted to \$61,117, representing 9.92% of their total GGMR of \$616,414. Table 8 below provides the amount of contributions made by hotel and tavern gaming machine licensees to each category.

Gaming Machine Act 2004

Part 12 Community contributions

164 Approval of community contributions

- (1) The commission may approve contributions made by a licensee to a stated entity for a stated purpose as community contributions if satisfied the contributions will have the effect of—
 - (a) contributing to or supporting the development of the community; or
 - (b) raising the standard of living of the community or part of the community.

Examples of areas of contributions

- 1 charitable and social welfare
- 2 sport and recreation
- 3 non-profit activities
- 4 community infrastructure

Note An example is part of the Act, is not exhaustive and may extend, but does not limit, the meaning of the provision in which it appears (see Legislation Act, s 126 and s 132).

- (2) The regulations may make provision in relation to contributions, including—
 - (a) guidelines for approving contributions as community contributions; and
 - (b) how contributions may be claimed.

Example

A capital payment may be claimed proportionately over a number of years.

(3) In this section:

community includes a community outside the ACT.

contribution, by a licensee—

- (a) includes the value of a contribution made in kind by the licensee; but
- (b) does not include the following:
 - (i) expenditure on commercial activities, or, if the licensee is a club, on the social or entertainment activities of the club for its members;
 - (ii) expenditure intended to promote the licensee's activities;
 - (iii) expenditure in relation to gambling (for example, the purchase of gaming machines);
 - (iv) capital payments for assets owned, controlled or being acquired by the licensee or an associated organisation that are not available to be used by the public;
 - (v) capital payments or other expenditure on assets owned, controlled or being acquired by the licensee, if the assets are not in the ACT;
 - (vi) notional provisions (for example, long service and annual leave), other than depreciation;
- (vii) depreciation in relation to a capital payment mentioned in paragraph (iv) or (v);
- (viii) depreciation in relation to a capital payment that is an approved contribution;
 - (ix) a capital payment if depreciation in relation to the payment is an approved contribution;

- (x) a contribution made out of donations collected by the licensee, or out of the proceeds of any special fundraising activity conducted by the licensee;
- (xi) a contribution to a business association, registered party, associated entity or trade union;
- (xii) if a contribution is made on a condition—the value to the licensee of that condition being fulfilled;
- (xiii) if an asset is otherwise a contribution—the value of any income earned from the asset (for example, entry or hiring fees);
- (xiv) a contribution made to another licensee under a reciprocal arrangement or agreement;
- (xv) the cost of borrowing funds to acquire an asset.

165 Records of contributions

- (1) A licensee must record each community contribution made by the licensee, stating—
 - (a) the entity to which, and the purpose for which, each contribution was made; and
 - (b) the amount or value of the contribution and the date when, or period over which, it was made.

Maximum penalty: 20 penalty units.

- (2) To remove any doubt, a record must relate to single licensed premises.
- (3) An offence against this section is a strict liability offence.

166 Report about records and finances

(1) Within 1 month after the end of a financial year, a licensee must give the commission a copy of the records kept under section 165 that relate to the financial year, together with a financial report for the financial year.

Maximum penalty: 20 penalty units.

(2) In this section:

financial report means a report about the following:

- (a) the gross revenue of the licensee;
- (b) if the licensee is a club—the net revenue of the licensee;
- (c) the total value of community contributions;
- (d) the total value of contributions to registered parties and associated entities.

Note If a form is approved under the Control Act, s 53D for a financial report, the form must be used.

167 Commission must report to Minister

Within 4 months after the end of the financial year, the commission must give the Minister a report—

- (a) summarising the extent of compliance by licensees with section 165 and section 166 for the financial year; and
- (b) analysing the extent to which revenue received by licensees was being used to make community contributions during the financial year.

168 Minister must present commission's report

The Minister must present a report given to the Minister under section 167 to the Legislative Assembly within 6 sitting days after the day the Minister receives the report.

169 Required community contributions

- (1) For a licensee that is a club, the *required community contribution* for a financial year is the required percentage of the club's net revenue for the financial year.
- (2) In subsection (1):

required percentage, for a club, means—

- (a) 7%; or
- (b) if the Minister determines a different percentage under subsection (3) for the club—that percentage.
- (3) The Minister may, in writing, determine a lower required percentage for a club if satisfied, on application by the club, that—
 - (a) the gross revenue of the club for a financial year is, or is likely to be, less than \$200 000; and
 - (b) if the required percentage for the club were 7%, the application of subsection (1) to the club would so seriously affect the club's viability that it would not be just and equitable in the circumstances for that subsection to apply to the club.
- (4) A determination under subsection (3) is a disallowable instrument.

Note A disallowable instrument must be notified, and presented to the Legislative Assembly, under the Legislation Act.

170 Corporations with several licences

- (1) This section applies to a club that is a licensee if a corporation owns the club and at least 1 other club that is a licensee.
- (2) In working out the community contributions for the club, common expenditure on behalf of the different clubs must be allocated between the clubs in proportion to the number of gaming machines operated by each club.

171 Women's sport community contributions

- (1) For every \$3 of women's sport community contributions that a licensee contributes to an entity under section 164 (1), the licensee's required community contributions must be worked out as if the licensee had contributed \$4.
- (2) In this section:

women's sport community contributions means community contributions that the commission is satisfied will benefit or enhance women's sport conducted in the ACT, or with participants mainly based in the ACT.

171A Problem gambling community contributions

- (1) For every \$3 of problem gambling community contributions that a licensee contributes to an entity under section 164 (1), the licensee's required community contributions must be worked out as if the licensee had contributed \$4.
- (2) In this section:

problem gambling community contributions means community contributions that the commission is satisfied will assist in—

- (a) alleviating problem gambling; or
- (b) alleviating the disadvantages that arise from problem gambling; or
- (c) providing information about problem gambling.

172 Community contribution shortfall tax

- (1) Tax (the *community contribution shortfall tax*) is imposed on a community contribution shortfall of a licensee that is a club at the rate of 100%.
- (2) The licensee must pay the community contribution shortfall tax.
- (3) Community contribution shortfall tax is payable 30 days after the day the licensee receives an assessment under the Control Act, part 6.
- (4) If an amount of community contribution shortfall tax is paid, the commission must transfer the amount to the grants program fund or, if another fund is prescribed under the regulations, that fund.
- (5) In this section:

community contribution shortfall, for a licensee that is a club in relation to a financial year, means the amount (if any) by which the club's community contributions fall short of its required community contribution.

Gaming Machine Regulation 2004

Part 9 Community contributions

63 Guidelines for approving contributions generally—Act, s 164 (2) (a)

- (1) The commission must not approve an amount spent on the following as a contribution:
