Mr Gordon Ramsay MLA
Minister for Business and Regulatory Services
ACT Legislative Assembly
London Circuit
CANBERRA ACT 2601

Dear Minister

On behalf of the ACT Gambling and Racing Commission (the Commission), I have the pleasure in submitting the report on community contributions made by gaming machine licensees for the financial year 2017-18.

I understand that the ACT Government has committed to reviewing the community contributions scheme. In the preparation of this current report, the rules and definitions applying to the community contributions scheme in 2017 - 18 have been applied.

This report has been prepared in accordance with section 167 of the *Gaming Machine Act 2004* (the Act) and meets the Commission's statutory responsibilities outlined in the Act to report to the Minister within four months of the end of the financial year on community contributions made by gaming machine licensees.

As required by the Act, the Commission's report covers compliance by the gaming machine licensees and analyses the extent to which licensees used their revenue to make community contributions during the year.

In accordance with section 168 of the Act you are required to table this report in the Legislative Assembly within six sitting days of receiving the report.

Yours sincerely

Paul Baxter
Chairperson

30 October 2018

1. INTRODUCTION

Purpose

This report provides a summary of the extent of compliance by ACT gaming machine licensees and an analysis of the extent to which revenue received by licensees has been used to make community contributions during 2017-18 (1 July 2017 to 30 June 2018). The report also includes statistical information compiled from the details of contributions supplied by licensees for the financial year.

Reporting requirements

Mandatory reporting of community contributions made by licensees was introduced in 1997.

Part 12 of the *Gaming Machine Act 2004* deals with community contributions. An extract of the legislation relevant to the reporting period is included at **Attachment A** of this report while guidelines for approving contributions available under Part 9 of the *Gaming Machine Regulation 2004* relevant to the reporting period are at **Attachment B**.

The legislation outlines broad purposes that contributions must meet to be approved as community contributions and identifies some types of expenditure that would not be approved. The Regulation provides guidelines for approving contributions to further assist the Commission and licensees regarding the general criteria for each of the categories of community contributions.

For the 2017-18 financial year a licensee that is a club was required to make a minimum level of community contributions equal to 8 per cent of the club's Net Gaming Machine Revenue (NGMR). NGMR, as defined in the legislation, is calculated as follows:

Gross Gaming Machine Revenue (GGMR) derived by the licensee, less:

- a) any amount of gaming machine tax payable on the GGMR; and
- b) 24 per cent of GGMR.

GGMR is the total of all monies inserted into machines less winnings to players and approved amounts set aside for the payment of linked jackpots. The 24 per cent deduction is recognition of the expenses a licensee incurs in gaming machine operations.

For a hotel or tavern licensee, it is not mandatory to make any contributions although it is compulsory to keep records and report the details of any contributions made. If no contributions are made in the reporting period, a nil report must be submitted.

All licensees must report to the Commission the total value of contributions to registered parties and associated entities (see *Electoral Act 1992*). These contributions are reported by the Commission for continuity of historical data even though there is no statutory requirement to report such information to the Minister.

2. SUMMARY OF 2017-18 CONTRIBUTIONS MADE

Value of community contributions made

In 2017-18, clubs made community contributions to the value of \$12,079,856 which was 12.69 per cent of their NGMR. This compares to last year's level of contributions of \$11,883,041 or 12.6 per cent of NGMR.

In 2017-18, hotels and taverns made community contributions of \$4,910 (3.4 per cent of NGMR).

Eligibility assessment and audit program

In relation to the reported contributions for 2017-18, club contributions totalling \$240,177 involving 30 clubs were considered ineligible for approval as community contributions and consequently were not approved. This represents 1.99 per cent of total claimed club contributions.

During 2017-18 the Commission conducted 44 audits concerning the verification of community contributions claimed for the 2016-17 financial year. The Commission's audits resulted in minor amendments to the 2016-17 financial year's community contributions statistics for both clubs and hotels/taverns.

Reporting compliance

As at 30 June 2018 there were 46 club venues and five hotel gaming machine venues that were required to submit reports pursuant to section 166 of the Act. All licensees but four submitted a report by the due date of 31 July 2018.

All clubs, apart from one, made the required minimum community contribution level of 8 per cent of NGMR and as a consequence a Community Contribution Shortfall Tax assessment has been issued to the licensee. This is a reviewable decision. No applications were received for 2018-19 from licensees seeking a determination from the Minister for a lower percentage of community contributions.

The total value of approved (eligible) contributions in 2017-18 increased by 1.7 per cent compared to the previous financial year and the proportion of community contributions to NGMR for 2017-18 also increased slightly compared to 2016-17. The level of NGMR in 2017-18 increased slightly by 0.7 per cent compared to the previous financial year.

Contributions by category

The level of contributions to the Sport and Recreation category consistently and significantly outweighs the combined totals of the other categories. The value of club community contributions made in 2017-18 increased compared to 2016-17 for the categories of Women's Sport, Charitable and Social Welfare, Sports and Recreation, Problem Gambling (Adjusted) and Problem Gambling Assistance Fund Levy. The value of community contributions have decreased for Non-Profit Activities and Community Infrastructure.

In the reporting period, community contributions of \$2,859,797 were in-kind and \$ 9,220,059 were monetary contributions for clubs. This is largely consistent with the break-up observed in 2016-17.

In 2017-18, 10 clubs reported contributions amounting to \$29,955 to registered political parties and associated entities.

Club contributions

There is a wide range in the level of individual club contributions. While the smaller clubs provide a much lower dollar amount, their contributions as a proportion of their NGMR is higher on average than for the larger clubs. In the reporting period the:

- 20 clubs that had the *highest* NGMR for the financial year had an average contribution percentage of 12.78 per cent and provided an amount of \$9,641,244.56 or 79.81 per cent of the total contributions;
- 20 clubs that had the *lowest* NGMR for the financial year had an average contribution percentage of 32.23 per cent and provided an amount of \$1,221,564.63 or 10.11 per cent of the total contributions; and
- The remaining 6 clubs had an average contribution percentage of 17.01 per cent and contributed \$1,217,046.97 or 10.08 per cent of the total club contributions.

Hotels and taverns contributions

For the hotel and tavern group of licensees, the NGMR in 2017-18 was \$145,132. These licensees contributed \$4,910 to the community, which represents 3.4 per cent of their NGMR.

3. ELIGIBILITY ASSESSMENT AND AUDIT PROGRAM

On receipt of each licensee's report of its community contributions the Commission conducts a preliminary examination of each reported contribution. The purpose is to ascertain *prima facie* its eligibility as a community contribution pursuant to the Act.

In instances where there is doubt about the eligibility of a contribution, licensees are contacted and afforded the opportunity to provide additional information before the Commission approves or declines to approve the contribution. In situations where no responses were provided the proposed contributions were not approved as they could not be verified as being eligible by the Commission.

In relation to the reported contributions for 2017-18, club contributions totalling \$240,177 (1.99 per cent of total claimed club contributions) involving 30 clubs were considered ineligible for approval as community contributions and consequently were not approved.

Following the Minister's tabling of the Commission's report, the Commission commences a more comprehensive audit program of reported contributions as part of the overall audit program of licensees. Discrepancies that are discovered which result in a material change to a licensee's community contributions are noted for inclusion in the following year's report, and if applicable, notices of shortfall tax liabilities are issued.

4. AMENDMENTS TO THE 2016-17 REPORT

During 2017-18 the Commission conducted 44 audits concerning the verification of community contributions claimed for the 2016-17 financial year. The Commission's audits resulted in modest amendments to the 2016-17 financial year's community contributions statistics for the clubs. The two tables that follow outline the final amendments to the contribution categories for each reporting group.

The Commission's focus has been on ensuring licensees are aware of their legislative obligations and ensuring compliance with these obligations.

As a result of the audit program, contributions from clubs for 2016-17 were reduced by \$44,644, while contributions made by hotels and taverns were unchanged. The primary reason for determining these contributions as ineligible was the inability of licensees to substantiate claims with appropriate records.

5. COMPLIANCE BY LICENSEES

REQUIREMENTS

Section 165 of the Act requires a licensee to record for each community contribution made by the licensee:

- the entity to which, and the purpose for which, each contribution was made; and
- the amount or value of the contribution and the date when, or the period over which, it was made.

To assist licensees in providing the community contributions information, reporting pro-forma have been developed by the Commission.

Section 166 of the Act requires a licensee to give the Commission within one month of the end of the financial year a copy of the records kept under section 165 of the Act. In addition, information specifying the licensee's GGMR, NGMR, total value of contributions and total value of contributions to registered parties and their associated political entities must be provided.

The Act requires the Commission to analyse and report on the extent to which gaming machine revenue received by licensees was being used to make contributions to the community during the financial year.

In general terms, community contributions approved under the Act are to be for the benefit of the general public or community. The contributions should have the effect of:

- contributing to or supporting the development of the community; or
- raising the standard of living of the community or part of the community.

Reported community contributions are defined and segregated, in accordance with the guidelines described in the Regulation, into each of the five categories indicated below:

- (i) Charitable and Social Welfare;
- (ii) Problem Gambling;
- (iii) Sport and Recreation;
- (iv) Non-Profit Activities; and
- (v) Community Infrastructure.

More comprehensive information on these categories is given at **Attachment B**.

There are two incentive schemes in the Act which have been included to encourage gaming machine licensees to increase their community contributions to women's sport and to assist problem gambling issues. The incentive schemes allow a licensee to claim \$4 for every \$3 spent on eligible contributions in these two areas. In light of these schemes, contributions to Women's Sport and Problem Gambling are reported as separate categories.

The minimum required percentage of community contribution for clubs is 8 per cent of NGMR. There is no minimum requirement for hotels and taverns.

The allowance of contributions to the Problem Gambling Assistance Fund, while a mandatory levy under section 163A of the Act, recognises the contribution made by gaming machine licensees to problem gambling support services under this scheme.

In relation to other contributions to problem gambling assistance section 171A of the Act allows licensees to claim \$4 for every \$3 for such contributions as an incentive to increase outlays in this area. Consistent with ensuring that payments to the Problem Gambling Assistance Fund are over and above the existing level of mandatory community contributions, section 171A(2) excludes payments to the Problem Gambling Assistance Fund from this incentive scheme. This means that while a licensee may include their payments to the Problem Gambling Assistance Fund as part of their problem gambling community contributions, they cannot claim the payments at the value of \$4 for every \$3 as they would other problem gambling community contributions. Accordingly, these two amounts have been separately identified.

COMPLIANCE

As at 30 June 2018 there were 46 club venues and 5 hotel gaming machine venues that were required to submit reports pursuant to section 166 of the Act.

All licensees but four submitted a report by the due date of 31 July 2018.

In accordance with section 172 of the Act, any shortfall in contributions below the required level of 8 per cent of NGMR is required to be paid as a Community Contribution Shortfall Tax.

All clubs apart from one, made the required minimum community contribution level of 8 per cent of NGMR and as a consequence a Community Contribution Shortfall Tax assessment has been issued to those licensees. A decision to issue a Community Contribution Shortfall Tax is a reviewable decision.

In circumstances where a club had an annual gross gaming machine revenue of less than \$200,000, the legislation provides for the club to apply to the Minister for a lower required percentage of community contributions. The club must demonstrate that its viability would be brought into question if required to meet the full 8 per cent of NGMR. No applications were received for 2017-18 from licensees seeking a determination from the Minister for a lower percentage.

6. EXTENT OF COMMUNITY CONTRIBUTIONS BY CLUBS

Table 3 below details the total value of approved community contributions by club gaming machine licensees for the past 10 financial years.

* NGMR is Net Gaming Machine Revenue as defined in the Gaming Machine Act 2004.

** 2017-18 Community Contribution is pre-audit number.

Table 3 indicates that the total value of approved (eligible) contributions has slightly increased in 2017-18 compared to the previous financial year, and the proportion of community contributions to NGMR for 2017-18 has also increased slightly compared to 2016-17. The level of NGMR in 2017-18 has increased compared to the previous financial year. The 2017-18 level of 12.7 per cent is also slightly higher than the average contribution rate over the past three years.

Table 4 provides a summary of total contributions made to each category, each category's proportion of the total community contributions and a comparison of each category's proportion of total contributions for 2016-17 and the previous reporting period, 2015-16.

In accordance with section 166 of the Act, in 2017-18 ten clubs reported contributions amounting to \$29,955 to registered parties and associated entities. Individual club contributions are listed at **Attachment F**.

Figure 2 below shows the proportion of community contributions provided to each category.

Figure 2. Percentage of Total Club Contributions, 2017-18

Source: ACT Gambling and Racing Commission

The level of contributions to the Sport and Recreation category consistently and significantly outweighs the combined totals of the other categories. This outcome highlights the fact that the support and development of sporting activities are among the principal objectives of many clubs and the expenditure consumed in pursuit of those objectives can be claimed as a community contribution.

WOMEN'S SPORT

The contributions to Women's Sport increased by \$328,418.84 or 103 per cent in 2017-18 from the previous year. Figure 3 below illustrates the historical trend for this category.

IN-KIND CONTRIBUTIONS vs MONETARY CONTRIBUTIONS

A community contribution may consist of a monetary contribution or an in-kind contribution. An in-kind contribution is a contribution in lieu of a donation of funds, such as providing a free room where the hire of that room would otherwise incur a cost.

In the reporting period, community contributions of \$2,859,797 were in-kind and \$ 9,220,059 were monetary contributions for clubs.

Figure 4 shows the break-up of in-kind and monetary contributions made by club licensees for 2017-18. This is consistent with the break-up observed in 2016-17.

OTHER STATISTICS

There is a wide range in the level of individual club contributions. Clubs with lower number of electronic gaming machines (EGMs) have a lower level of community contribution, however contribute a higher percentage of their NGMR. Table 5 provides statistics on clubs with number of EGMs, NGMR and eligible contributions.

7. EXTENT OF COMMUNITY CONTRIBUTIONS BY HOTELS AND TAVERNS

Hotels and taverns are required to report on their community contributions or to submit a nil report if no contributions have been made during the reporting period. The categories of community contributions that apply to clubs, including the incentive schemes for Women's Sport and Problem Gambling, also apply to hotels and taverns. However, the statistical information for hotels and taverns is based on the gross gaming machine revenue (GGMR) consistent with the legislative reporting requirements. For the hotel/tavern group of licensees, GGMR in 2017-18 was \$292,202. These licensees contributed \$4,910 to the community, which represents 1.7 per cent of their GGMR. In 2016-17 the total contributions amounted to \$7,018 representing 2.1 per cent of their total GGMR of \$341,541.

Table 7 below provides the amount of contributions made by hotel and tavern gaming machine licensees to each category.

165 Records of contributions

- (1) A licensee must record each community contribution made by the licensee, stating—
 - (a) the entity to which, and the purpose for which, each contribution was made; and
 - (b) the amount or value of the contribution and the date when, or period over which, it was made.

Maximum penalty: 20 penalty units.

- (2) To remove any doubt, a record must relate to single licensed premises.
- (3) An offence against this section is a strict liability offence.

166 Report about records and finances

- (1) Within 1 month after the end of a financial year, a licensee must give the commission a copy of the records kept under section 165 that relate to the financial year, together with a financial report for the financial year.

Maximum penalty: 20 penalty units.

- (2) In this section:

financial report means a report about the following:

- (a) the gross revenue of the licensee;
- (b) if the licensee is a club—the net revenue of the licensee;
- (c) the total value of community contributions;
- (d) the total value of contributions to registered parties and associated entities.

Note If a form is approved under the Control Act, s 53D for a financial report, the form must be used.

167 Commission must report to Minister

Within 4 months after the end of the financial year, the Commission must give the Minister a report—

- (a) summarising the extent of compliance by licensees with section 165 and section 166 for the financial year; and
- (b) analysing the extent to which revenue received by licensees was being used to make community contributions during the financial year.

168 Minister must present commission's report

The Minister must present a report given to the Minister under section 167 to the Legislative Assembly within 6 sitting days after the day the Minister receives the report.

169 Required community contributions

(1) For a licensee that is a club, the **required community contribution** for a financial year is the required percentage of the club's net revenue for the financial year.

(2) In subsection (1):

required percentage, for a club, means—

- (a) 8%; or
- (b) if the Minister determines a different percentage under subsection (3) for the club—that percentage.

(3) The Minister may, in writing, determine a lower required percentage for a club if satisfied, on application by the club, that—

- (a) the gross revenue of the club for a financial year is, or is likely to be, less than \$200 000; and
- (b) if the required percentage for the club were 8%, the application of subsection (1) to the club would so seriously affect the club's viability that it would not be just and equitable in the circumstances for that subsection to apply to the club.

(4) A determination under subsection (3) is a disallowable instrument.

Note A disallowable instrument must be notified, and presented to the Legislative Assembly, under the Legislation Act.

170 Corporations with several licences

(1) This section applies to a club that is a licensee if a corporation owns the club and at least 1 other club that is a licensee.

(2) In working out the community contributions for the club, common expenditure on behalf of the different clubs must be allocated between the clubs in proportion to the number of gaming machines operated by each club.

171 Women's sport community contributions

(1) For every \$3 of women's sport community contributions that a licensee contributes to an entity under section 164 (1), the licensee's required community contributions must be worked out as if the licensee had contributed \$4.

(2) In this section:

women's sport community contributions means community contributions that the Commission is satisfied will benefit or enhance women's sport conducted in the ACT, or with participants mainly based in the ACT.

171A Problem gambling community contributions

(1) For every \$3 of problem gambling community contributions that a licensee contributes to an entity under section 164 (1), the licensee's required community contributions must be worked out as if the licensee had contributed \$4.

(2) This section does not apply to a payment required under section 163A (1) (Required payment to problem gambling assistance fund).

(3) In this section:

problem gambling community contributions means community contributions that the commission is satisfied will assist in—

- (a) alleviating problem gambling; or
- (b) alleviating the disadvantages that arise from problem gambling; or
- (c) providing information about problem gambling.

172 Community contribution shortfall tax

(1) Tax (the ***community contribution shortfall tax***) is imposed on a community contribution shortfall of a licensee that is a club at the rate of 100%.

(2) The licensee must pay the community contribution shortfall tax.

(3) Community contribution shortfall tax is payable 30 days after the day the licensee receives an assessment under the Control Act, part 6.

(4) If an amount of community contribution shortfall tax is paid, the commission must transfer the amount to the grants program fund or, if another fund is prescribed under the regulations, that fund.

(5) In this section:

community contribution shortfall, for a licensee that is a club in relation to a financial year, means the amount (if any) by which the club's community contributions fall short of its required community contribution.
